## INDEPENDENT AND PROGRESSIVE

Mullin-Kille Company (Associate of Baldwin ConSurvey Company), publisher of this directory and world's largest independent publisher of city directories, is in no way connected with any national association, combination or directory "trust." Its policies are laid down with a view to serving the individual directory subscriber and the general public. It is a progressive company, constantly on the alert to improve its service.

The ABCD type of ConSurvey directory was originated by Robert Morton Baldwin and Heber Page. While many publishers have been content to rest on their laurels, issuing the same type of directory used fifty years ago, the Baldwin and Mullin-Kille organization has led the way to the production of an up-to-date ConSurvey directory to meet modern selling and credit conditions.

Newspapers, chambers of commerce, merchants associations and individual business concerns are invited to write for particulars concerning this type of directory service. In the future, as in the past, Mullin-Kille and Baldwin ConSurvey directories will stand for the highest ideals in public service.

ROBERT MORTON BALDWIN

The information herein contained was taken by trained enumerators in a house-to-house canvass of the city and adjacent territory and checked with material supplied by employers. The publishers offer it as the most reliable information available but do not assume any responsibility for errors.

### FIVE DIVISIONS OF THE BOOK

The principal divisions of the Mullin-Kille Directory contain the following information:

1. **THE BUYERS GUIDE** and **CLASSIFIED BUSINESS DIRECTORY SECTIONS** contain display information concerning the leading business firms of the city, announcements of churches, clubs, lodges, associations and schools, and the names of all business firms, professional men and women and non-profit organizations, properly classified, with the names of distributors of national brands of merchandise.
2. **THE NUMERICAL TELEPHONE DIRECTORY** contains telephone numbers arranged in numerical sequence.
3. **THE HOUSEHOLDERS' DIRECTORY AND STREET TELEPHONE GUIDE** contains a complete directory of streets and avenues, properly located, gives the names of all householders arranged as they come upon the streets and avenues, indicates ownership of property, and gives the telephone number of each house.
4. **THE RESIDENT DIRECTORY AND COSMOPOLITAN TELEPHONE DIRECTORY** contains most of the data concerning the individual. The wife's name is given in parentheses, and the number of dependents under 18 is shown as well as the ownership of homes. This is followed by position, place of employment, home address and accessible telephone numbers.
5. **THE RURAL ROUTE DIRECTORY** contains a list of householders and residents on each Rural Route leading out from city.
